Ability to remove the register button from the login screen .....	3
Carousel - ability to add image sizes.....	4
Welcome Messages and Catalogs item expiration.....	5
Rule contitions- Purchase source type/ name.....	6
Bug fix.....	7

## Videos/GIFs available in catalog and welcome messages

- Until today, we had the option to add only images to the catalog and welcome messages.
- Now, there is a new option to add aslo videos/GIFs!

Use the tags below to add Video/GIF:

- `##_GIF_URL:url##_`
- `##_VIDEO_URL:url##_`
- `##_VIDEO_OPTIONS:autoplay, cc_load_policy, controls, showinfo, loop, mute##_`

Video options details:

**cc\_load\_policy** -Setting the parameter's value to true causes closed captions to be shown by default, even if the user has turned captions off. The default behavior is based on user preference.

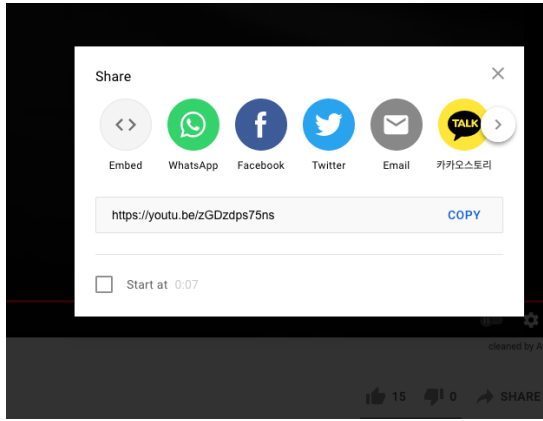

**controls**- This parameter indicates whether the video player controls are displayed (true by default)

**Showinfo**- indicates whether the player should display information like the video title

The image shows two side-by-side screenshots of a web application interface. The left screenshot is titled 'Edit Item' and shows a form for editing a menu item. The right screenshot is titled 'Welcome Messages' and shows a form for editing a welcome message. Both screenshots have a green box highlighting the 'Add View Tags' field, which contains the URL: `##_GIF_URL:https://media.giphy.com/media/kKzFYlqCv7yDe/giphy.gif##_`. The 'Edit Item' form includes fields for Title, Description, Price, Category, Location visibility, and Add Tags. The 'Welcome Messages' form includes fields for Title, Restrict access only to members?, Location visibility, and Add View Tags. The 'Add View Tags' field in both forms has a placeholder text 'tags\_placeholder'.

If you are using a YouTube URL, you should:

1. Open the youtube video.
2. Click on 'share' button
3. Select the 'Embed' option
4. Take the URL inside the code snippet

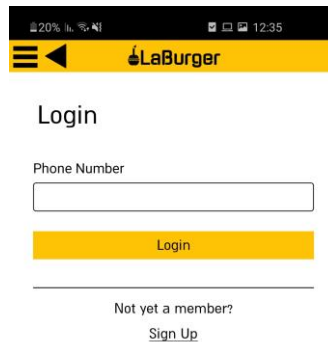

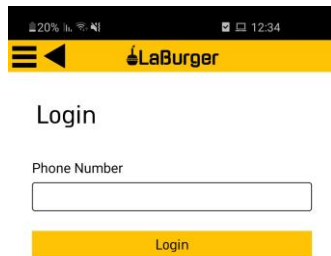

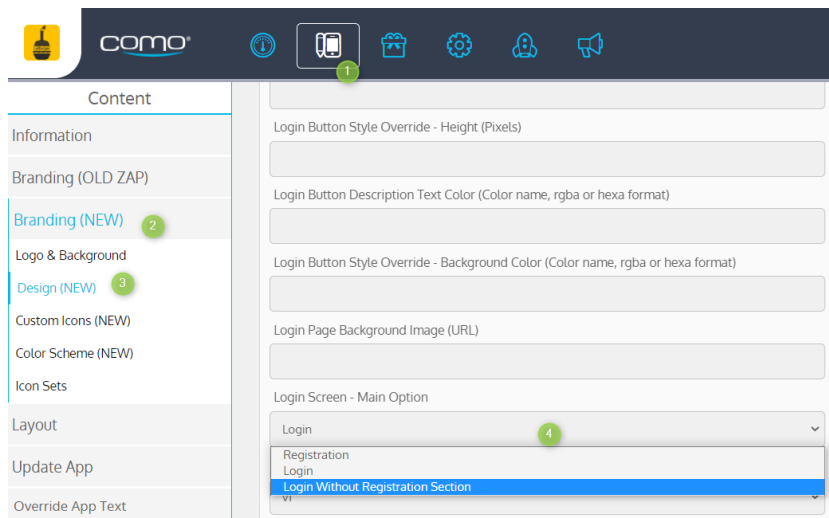

**Note:**

- You still need to upload an image, otherwise you won't be able to save. There will be no use for the image

## Ability to remove the register button from the login screen

If the business doesn't want the option to register from the app, for example, the business charge for the membership (the registration is only available from the POS), now he can hide the registration button and display only the login button.

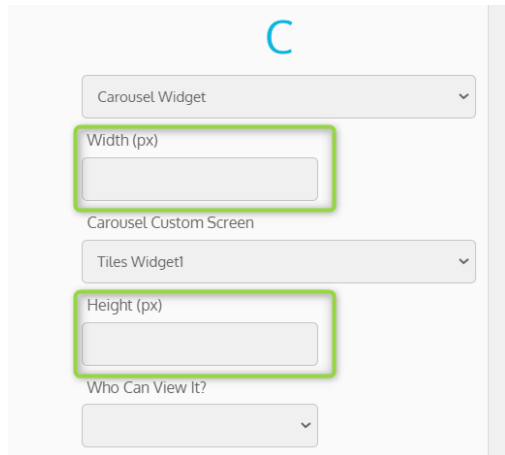

From Hub1 Content tab → Branding (New) → Design (New) → 'login screen- main option'  
→ login without registration section.

## Carousel - ability to add image sizes

Change the size of the Carousel Widget as you wish.

From content → Layout → Home Screen (new) → Carousel Widget- Height and Width

The image shows a configuration panel for a 'Carousel Widget'. At the top, there is a blue letter 'C'. Below it, a dropdown menu is set to 'Carousel Widget'. Underneath, there is a 'Width (px)' label followed by an empty input field, which is highlighted with a green rectangular box. Below that is a 'Carousel Custom Screen' label and another dropdown menu set to 'Tiles Widget1'. This is followed by a 'Height (px)' label and another empty input field, also highlighted with a green rectangular box. At the bottom, there is a 'Who Can View It?' label and a dropdown menu.

## Welcome Messages and Catalogs item expiration

Add tags based on dates/days/hours you want to display the welcome / catalog.

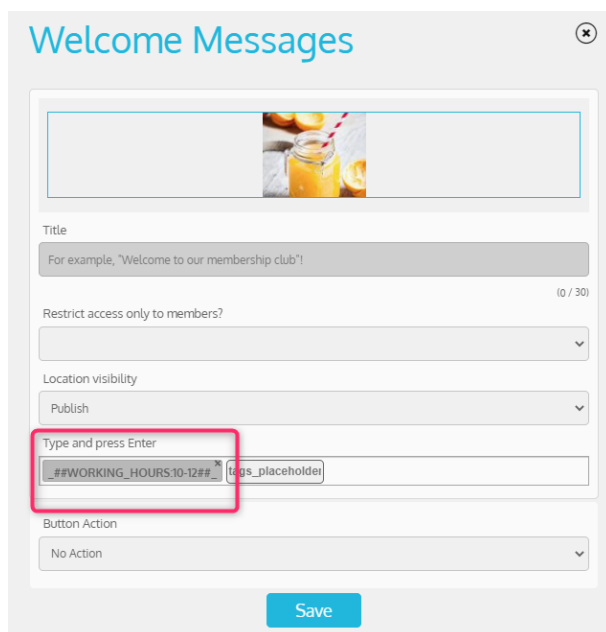

### List of the tags:

#### Catalogs:

\_##VALID\_UNTIL:DD/MM/YYYY\_HH:mm##\_  
\_##VALID\_FROM:DD/MM/YYYY\_HH:mm##\_  
\_##DAYS\_OF\_WEEK:MON,TUE,WED,THU,FRI,SAT,SUN##\_  
\_##WORKING\_HOURS:10-22##\_  
\_##NON\_MEMBERS\_ONLY##\_  
\_##MEMBERS\_ONLY##\_  
\_##width:500##\_  
\_##height:500##\_

#### Welcome messages:

\_##VALID\_UNTIL:DD/MM/YYYY\_HH:mm##\_  
\_##VALID\_FROM:DD/MM/YYYY\_HH:mm##\_  
\_##DAYS\_OF\_WEEK:MON,TUE,WED,THU,FRI,SAT,SUN##\_  
\_##WORKING\_HOURS:10-22##\_  
\_##NON\_MEMBERS\_ONLY##\_  
\_##MEMBERS\_ONLY##\_

**Welcome Messages**

Title  
For example, "Welcome to our membership club!" (0 / 30)

Restrict access only to members?

Location visibility  
Publish

Type and press Enter  
\_##WORKING\_HOURS:10-12##\_ (tags\_placeholder)

Button Action  
No Action

Save

## Rule conditions- Purchase source type/ name

New conditions were added to the 'redeem a benefit' trigger.

- Purchase source type
- Purchase source name

Create a rule when a member redeems a benefit based on the purchase source.

For example, give members that redeem a benefit from ordering a new benefit for their next visit.

The screenshot shows the configuration interface for a rule titled "Redeems a benefit". The "Apply it" section includes "To registered members", "At any date and time", and "Infinite times per member". The "Conditions" section is set to "Benefit is test". A dropdown menu is open under "Benefit", showing options: "Benefit", "Probability", "Purchase source type", and "Purchase source name". The "Purchase source type" option is highlighted. Below the conditions, there is a section for "Perform" with a dropdown for "Case 1 of 1" and a "Select field" dropdown.

## Bug Fix

- Profile Widget alignment issue - [1244131079](#)
- Button roundness - profile page- [1244121592](#)
- Member profile screen causing a reactor app to crash - [1264759503](#)
- App crash in new purchase history screen - [1260135807](#)
- Issue with Header Icons - [1260330248](#)
